

Concurrent Enrollment Guide

Snow College

Richfield Campus
800 West 200 South, Richfield, UT 84701

General Information for Concurrent Enrollment (CE) on the Richfield Campus

Students taking courses at Snow College for the first time should complete the [Steps to Success](#) form.

- To register for CE courses, students must have a Badger ID.
- Space is limited. Courses fill on a first come, first served basis.
- Release from a high school does not mean a student is registered for a Snow College course.

Course information is provided for the following programs:

- Allied Health Page 2
- Business Pages 3-5
- Industrial Technology Pages 6-10
- Information Technology Pages 11-12
- Service Technology Pages 13-16
- Transportation Technology Pages 17-20
- General Education Page 21
- Badger Tracks Scholarship Page 22

Costs

- \$5 per credit
- Textbooks
- Course fees (testing, licensure, project materials, third-party resources, etc.)
- Kits and tools
- Uniforms

Textbooks

- Before purchasing, please check with instructors for the best options.
 - Textbooks have many options and a variety of price ranges.
 - Ebooks, subscriptions, inclusive access fees, rentals, and used books may be available at lower prices.
 - Estimated costs are provided. All costs are subject to change.
 - [Campus Textbook Resource](#)

Helpful Links

- [Degrees and Certificates](#)
- [Pathways](#)

- [Registration Website](#)

Use this guide to complement semester schedules for fall, spring, and summer. The schedule will include details such as Course Reference Number (CRN), start date, end date, days offered, times offered, building, and room. A schedule is available through your counselor and the Snow College Registration Website. Students are encouraged to view/print their schedules in [Badger Web](#) before classes begin.

The information provided is subject to change. (updated 3/16/2021)

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AHNA 1000 Nursing Assistant	6	\$30	\$25	\$130	N/A	Participants must be at least 16 years of age to enroll in the CNA class. Preference will be given to 17 years or older.

Description: This course focuses on the application of basic nursing skills needed to prepare students for employment as a nursing assistant in a variety of healthcare settings. The course includes a combination of lecture, skill lab, and clinical experiences to provide students the knowledge and skills needed to pass the state certification test. This course is a prerequisite to the nursing program (LPN) at Snow College.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
NURP 1000 Introduction to Medical Terminology	2	\$10	N/A	subscription	N/A	

Description: Medical Terminology provides the basic knowledge and background of the technical language of medicine. Students learn the origins and definitions of root words, affixes, and abbreviations used in medicine today. This course is recommended for anyone interested in a health or medical field of study. This course is a structured, 15-week, online course which uses a textbook.

The Business Department offers Certificates of Proficiency in Basic Accounting, Entrepreneurship, Marketing, and others. Please visit with a Student Success advisor for details. If you plan to major in business, you can get started on your Associate of Science Business degree in high school or apply for the Business Academy as a college freshman. See Page 5 for details.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 1010 Introduction to Business	3	\$15	N/A	\$70	N/A	

Description: This course is designed to expose students from any area of study to the many functions of modern business. The course shows students how these functions exist in a changing society and the types of decisions which must be made within that environment. The importance of business in modern society is also emphasized throughout the course. In an introductory manner, the course covers topics such as entrepreneurship, economics, management, human resource management, marketing, and accounting.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 1020 Computer Technology and Applications	3	\$15	\$5	subscription	N/A	

Description: BUS 1020 is an introductory course covering computer related topics and business computer applications. Students will use Microsoft Office or Office 365 to learn the basics of word processing, spreadsheet, and presentation software and use all applications in a final project. Other technology related topics may include computer concepts, security, ethics, operating systems, email, Internet features, blogs, podcasts, Canvas, and other various technologies and computer applications related to a major or career.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 1060 QuickBooks for Small Business	3	\$15	\$5	\$78-130	N/A	Book price depends on print or ebook. Software provided.

Description: This course is designed for entrepreneurs or small business owners who have chosen to use QuickBooks software to manage accounting. The course teaches basic accounting concepts and simple automated accounting methods for recording business transactions and maintaining necessary financial reports.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 1170 Human Relations in Organizations	3	\$15	N/A	\$100 Inclusive Access Fee	N/A	Qualifies as a Social and Behavioral Science General Education requirement.

Description: This is an introductory course in human relations principles and skills applicable to management effectiveness, career success, and personal relationships. Theories and methods of organizational behavior, professionalism, motivation, team building, conflict resolution, leadership, negotiation, cultural differences, and personal communication are discussed. Practical application and development of skills in these areas are emphasized throughout the course.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 1200 Business Careers Seminar	1	\$5	\$25	No Book	N/A	

Description: This course will introduce students to the many rewarding career and educational opportunities in business. Students will explore the Business Department degree and certificate options available at Snow, as well as future educational and career possibilities. The course is designed to help students connect career interests with educational options and requirements. Guest lecturers will include professionals from industry, as well as representatives from four-year business programs at transfer schools.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 1210 Personal and Consumer Finance	3	\$15	N/A	\$104 (Inclusive Access Fee)	N/A	This course is cross-listed as HFST 1210 and meets general education requirements for Social and Behavioral Science.

Description: This course will introduce personal and consumer financial concepts and give students basic tools to make sound financial decisions in today's society based on economic trends and research. This is a practical course in personal money management consisting of financial planning including career choices, budgeting, planning for retirement, financing a home and automobile, and understanding consumer credit, taxes, insurance, and investments. Students will use basic math skills as well as read, write, and think critically.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 1270 Strategic Selling	3	\$15	N/A	\$120	N/A	Qualifies as an Integrated Exploration (IE) General Education requirement.

Description: BUS 1270 is a pragmatic course that explores the theory and application of sales and customer service, with a focus on relationship building. Students will present multiple sales presentations based on strategies, theories, and best practices learned in class. The culmination of the course is a final sales presentation which provides an opportunity to apply what was learned throughout the term.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 1300 Social Media Marketing	3	\$15	N/A	\$79	N/A	

Description: Social Media Marketing will provide participants with a foundation and skillset in the continuously evolving world of social media marketing. These tools and strategies can be immediately applied in the workplace and in life. Students will learn how to create meaningful relationships with customers, colleagues, and employers through the use of social media. The course will provide a solid introduction to online community building and creating value using social media interaction. The effective use of relevant social media tools and platforms will be covered.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 1600 Entrepreneurship Seminars	1	\$5	N/A	No Book	N/A	

Description: In this course students are introduced to the challenges and rewards of entrepreneurship as they learn from the experiences shared by successful guest entrepreneurs. Each guest entrepreneur offers insight regarding starting, operating, and harvesting a successful venture to inform and inspire students.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 2010 Business Computer Proficiency	3	\$15	\$5	subscription	N/A	

Description: This course is designed for business majors and those wanting a thorough knowledge of spreadsheets and databases. Students will use Microsoft Excel and Access. The course will cover introductory to intermediate database concepts and

intermediate to advanced spreadsheet concepts. Students will complete an integrated project using both applications to solve business problems. Students should have a basic understanding of computer applications and file management. BUS 1020 is recommended as a prerequisite.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 2050 Business Law	3	\$15	N/A	Check w/ instructor	N/A	

Description: This course addresses basic principles of business law, including the legal environment of business, forms of business organization, ethics, torts, contracts, agency, and the purchase and sale of goods under the Uniform Commercial Code. This class will provide a basic framework of business law which will help students who either start their own business, work for someone else, or pursue a legal degree.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 2200 Business Communication	3	\$15	N/A	subscription	N/A	

Description: In this course, students learn highly marketable skills in preparing strategic professional business documents and presentations. Students explore a variety of problem-solving approaches typical in a professional environment. This course includes employment document preparation, as well as job interview strategies and techniques. Skills learned in this course are valuable to students in any major.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 2222 Entrepreneurship	3	\$15	N/A	\$50	N/A	

Description: Open to students from any discipline, this introductory course is intended to provide students with a solid foundation in how to turn entrepreneurial ideas into reality. In this class, students can find the knowledge and strategies to take their ideas to the next level, whether they are ready to channel their inspiration into a new venture or take their ideas to a larger organization.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
BUS 2450 Presentations for Business	3	\$15	N/A	subscription	N/A	

Description: This course is designed for students to develop effective oral presentation skills, allowing for increased poise and self-confidence. Students learn marketable skills such as how to integrate presentation and technical skills to create dynamic and professional presentations that may be presented online and/or to live audiences. The course teaches students how to perform audience analysis for planning a well-received presentation with a clear purpose. Students will be given multiple opportunities to plan, develop, deliver, and evaluate presentations. Strategies for overcoming presentation anxiety and relaxation techniques will be explored.

The following are first-level certificates. Other certificates are available and certificates may be combined for an AAS degree. Please visit with a Student Success advisor for more details.

Certificate of Proficiency in Composites

Course Number	Title	Credits	Lecture	Lab	Hours
CMP 1020	Safety, Metrology, and Rigging	3	2	3	75
CMP 1000	Composites Basic	3	2	3	75
MANF 1075	Interpreting Engineering Drawings	2	2	0	30
CMP 1100	Mold Preparation and Tooling	2	1	3	60
CMP 1200	Materials, Cutting, Curing, and Filament Winding	3	2	3	75
CMP 1300	Vacuum Bagging and Bonding Processes	2	1	3	60
MANF 1550	Quality Assurance	3	2	3	75
Totals		18	12	18	450

Certificate of Proficiency in Industrial Mechanics

Course Number	Title	Credits	Lecture	Lab	Hours
CMP 1020	Safety, Metrology, and Rigging	3	2	3	75
INDM 1100	Industrial Mechanics I	3	2	3	75
INDM 1200	Industrial Mechanics II	3	2	3	75
INDM 1800	Industrial Hydraulics	3	2	3	75
INDM 1500	Industrial Pneumatics	3	2	3	75
INDM 1600	Industrial Electricity	3	2	3	75
Totals		18	12	18	450

Certificate of Proficiency in Manual Machining

Course Number	Title	Credits	Lecture	Lab	Hours
CMP 1020	Safety, Metrology, and Rigging	3	2	3	75
MTT 1000	Survey of Machine Tool	2	1	3	60
MTT 2716	Machine Tool Math	3	2	3	75
MANF 1075	Interpreting Engineering Drawings	2	2	0	30
MTT 1110	Intro to Precision Machining	3	3	0	45
MTT 1125	Intro to Precision Machining Lab	5	0	15	225
Totals		18	10	24	510

Certificate of Proficiency in Entry Level Welding

Course Number	Title	Credits	Lecture	Lab	Hours
WELD 1012	Oxyacetylene Welding	2	1	3	60
WELD 1015	Cutting Processes	2	1	3	60
WELD 1020	Intro to SMAW	4	2	6	120
WELD 1220	Intro to GMAW	2	1	3	60
WELD 1420	Intro to GTAW	2	1	3	60
WELD 2210	Blueprints for Welders	5	5	0	75
Totals		17	11	18	435

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CMP 1000 Composite Basics	3	\$15	\$0	\$30	N/A	Students need Safety Glasses

Description: This course covers introductory topics in general composite manufacturing including composite equipment, materials, methods, and processes for proper and quality assured composite production.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CMP 1020 Safety, Metrology, and Rigging	3	\$15	\$0	\$30	N/A	Students need Safety Glasses

Description: This course covers introductory topics in general safety including. OSHA, PPE, respiratory safety, lockout/tagout procedures, safety for electrical work, hand tool safety and power tool safety, in a manufacturing shop. Topics in basic metrology will also be covered to include the use of calipers, micrometers, height gages, scales and tape measures. Topics in basic rigging will also be covered to include rigging equipment, fiber, and wire rope lay.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CMP 1100 Mold Preparation and Tooling	2	\$10	\$0	\$30	N/A	Students need Safety Glasses

Description: This course covers the basic procedures and processes for mold preparation, composite materials tooling, and mold release agents.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CMP 1200 Material, Cutting, Curing and Filament Winding	3	\$15	\$0	\$30	N/A	Students need Safety Glasses

Description: This course covers foundational topics and basic procedures and processes for manufacturing composite materials. Students will cut, cure, and filament wind advanced composite material.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CMP 1300 Vacuum Bag and Bonding Procedures	2	\$10	\$0	\$30	N/A	Students need Safety Glasses

Description: This course covers the basic procedures and processes for performing single-sided vacuum bagging and safety precautions and techniques to prevent bagging problems. This class also covers basic procedures in preparation for bonding and bonding with adhesives.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
INDM 1100 Industrial Mechanics I	3	\$15	\$0	\$0	N/A	Students need Safety Glasses

Description: This course is designed to introduce the basics of industrial mechanical systems. This course begins a series of four courses designed to prepare students to understand and recognize mechanical systems they will encounter on the job. Students will learn relevant industrial skills, including mechanical drive systems, key fasteners, power transmission systems, v-belt drives, chain drives, spur gear drives and multiple shaft drives. Students will learn basic measuring for industrial applications using basic measurement tools to include digital calipers, micrometers and dial calipers.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
INDM 1200 Industrial Mechanics II	3	\$15	\$0	\$0	Prerequisites INDM 1100	Students need Safety Glasses

Description: The course teaches the bearings and gears used in heavy duty mechanical transmission systems. This course will emphasize linear axis drives, clutches and brakes. In addition, this course teaches how to setup, operate and apply laser shaft alignment to a variety of industrial applications. Topics include heavy-duty v-belt drives, v-belt selection and maintenance, synchronous belt drives, lubrication concepts, precision shaft alignment, couplings and heavy-duty chain drives. Students will also learn the basics of vibration analysis used to determine when to perform maintenance of power transmission components.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
INDM 1500 Industrial Pneumatics	3	\$15	\$0	Check w/ instructor	N/A	Students need Safety Glasses

Description: This course teaches the fundamentals of pneumatic systems using industrial, agricultural and mobile applications. Students will learn skills in the following areas: safety, basic pneumatic systems design, installation, operation, and performance analysis. Student will also be skilled in more advanced concepts of air logic, ways to decelerate a pneumatic cylinder, how to prevent condensation in a pneumatic circuit, DCV applications, and maintenance.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
INDM 1600 Industrial Electrical	3	\$15	\$0	Check w/ instructor	N/A	Students need Safety Glasses

Description: This course teaches industry-relevant fundamentals of AC/DC electrical systems used for power and control in industrial, commercial, agricultural, and residential applications as well as commercial and residential applications including single phase AC motors and three-phase AC electric motors, DC electric motors, and DC generators. Students will learn skills in how to operate, install, analyze performance, select electric machines for various applications, design, and troubleshoot basic AC/DC electrical circuits for various applications.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
INDM 1800 Industrial Hydraulics	3	\$15	\$0	Check w/ instructor	N/A	Students need Safety Glasses

Description: This course introduces industry-relevant hydraulic skills while showing the fundamentals of the hydraulic principles, hydraulic motors and actuators, and hydraulic formulas such as calculating theoretical pump flow rate. Students learning skills will include: safety, how to operate, install, troubleshoot, analyze performance, and design hydraulic systems. Students will also be skilled in more advanced hydraulics.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
MANF 1550 Quality Assurance	3	\$15	\$0	Check w/ instructor	N/A	Students need Safety Glasses

Description: This course will introduce students to the quality inspection of manufacturing. After completion of this course students will understand how to inspect a product and compare it to engineered blueprints to determine quality.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
MANF 1075 Interpreting Engineering Drawings	2	\$10	\$0	Check w/ instructor	N/A	Students need Safety Glasses

Description: This course covers introductory topics in engineering blueprints. Engineering blueprints are manufacturing instructions that generally contain a drawing, dimensions, and notes. Engineering blueprints are used as the guide to manufacture a product. Students will be able to read and understand blueprints. Students will be able to complete projects according to the engineering drawings.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
MTT 1000 Survey of Machine Tool	2	\$10	\$0	\$0	N/A	Students need Safety Glasses

Description: This is an introductory course for those interested in the world of manufacturing. It emphasizes the machine tool field and includes hands-on activities with metal cutting lathes and milling machines.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
MTT 1110 Intro to Precision Machining	3	\$15	\$0	Check w/ instructor	Corequisites MTT 1125	Students need Safety Glasses

Description: This course is for first semester students. It teaches the manufacturing of metal parts using machine tool operations. Students learn the theoretical operations of the engine lathe, drill press, pedestal grinder, and vertical milling machine. The course includes lecture, discussion, and demonstrations.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
MTT 1125 Intro to Precision Machining Lab	5	\$25	\$0	Check w/ instructor	Corequisites MTT 1110	Students need Safety Glasses

Description: This is a lab course for first semester students. It teaches the manufacturing of metal parts using machine tool operations and covers hands-on operations of the engine lathe, drill press, pedestal grinder, and vertical milling machine. Students practice all common operations done on a metal cutting lathe and are introduced to the basic operation of the vertical milling machine. The course includes demonstrations, practical applications, and labs. Those that complete the course should have entry skills for the machine tool industry.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
WELD 1012 Oxy-acetylene Welding	2	\$10	\$10	Check w/ instructor	N/A	Students need Safety Glasses

Description: This is a course for various trades and community members. This beginning course covers theory and practice of oxy-acetylene fusion welding of sheet steel, including welding, soldering, and braze welding of ferrous and non-ferrous metal. Local industries, farmers, and ranchers use oxy-acetylene equipment to make repairs and fabricate parts.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
WELD 1015 Cutting Processes	2	\$10	\$10	Check w/ instructor	N/A	Students need Safety Glasses

Description: This is a course designed for various trades and community members. This course covers theory and practice of oxy-acetylene, carbon arc, oxygen lance, plasma processes and the cutting of ferrous and non-ferrous metal. Local construction, fabrication shops and mining use these processes to make repairs and fabricate parts.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
WELD 1020 Intro to SMAW	4	\$20	\$10	Check w/ instructor	N/A	Students need Safety Glasses

Description: This course is designed for welding technology majors, various trades, and community members. The course is for beginning students interested in learning basic arc welding techniques, theory, and practices, including types of machines, electrodes, and their application. Students study types of joints, expansion and contraction of metals, care and use of tools and equipment, and welding safety.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
WELD 1220 Intro to GMAW	2	\$10	\$10	Check w/ instructor	N/A	Students need Safety Glasses

Description: This is a course designed for welding technology majors to cover theory and practical hands-on experience with semi-automatic wire-fed machines. Emphasis is on safety and maintenance of equipment, basic fundamentals of each process, mode of transfers associated with gas metal arc welding (GMAW) processes, electrode selection, gas selection, proper regulator and flow meter calibration. Joint design and equipment troubleshooting will also be discussed.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
WELD 1420 Intro to GTAW	2	\$10	\$10	Check w/ instructor	N/A	Students need Safety Glasses

Description: This course is for welding technology majors. It covers basic fundamentals of gas tungsten arc welding (GTAW) processes.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
WELD 2210 Blueprints for Welders	5	\$25	\$10	Check w/ instructor	NA	Students need Safety Glasses

Description: This course studies basic print interpretation and visualization for industrial applications. It includes weld symbols and covers layout techniques from shop drawings to fabrication of sheet metal, plate, pipe, and structural shapes. Lab experience is included.

Certificate of Proficiency in Networking

Course Number	Title	Credits	Lecture	Lab	Hours
CIS 1000	CIS Orientation	1	0	2	30
CIS 1125	IT Essentials	4	2	4	90
CIS 1130	Networking Basics	3	1	4	75
CIS 1140	Network Essentials	4	2	4	90
CIS 1310	Network Security Fundamentals	4	2	4	90
Totals		16	7	18	375

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CIS 1000 CIS Orientation	1	\$5	0	0	NA	

Description: The CIS orientation class is designed to introduce students to the program and degree pathway for the CIS department. Students will be introduced to the curriculum, pathways, and industry certifications. Students will be introduced to the learning model utilized in the department to include; online/hybrid instruction, required clock hours in class, and program outcomes. Students will learn how to utilize software platforms used in the program for learning (e.g., Canvas, NetAcad, and Packet Tracer).

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CIS 1125 IT Essentials	4	\$20	\$10	\$0	N/A	This course prepares students for the CompTIA A+ certification exam.

Description: This course discusses the history, role, and structure of computer architecture and operating systems needed by computers and provides an introduction to the computer hardware and software skills needed to help meet the growing demand for entry-level computer technicians. The curriculum covers the fundamentals of computer hardware and software as well as advanced concepts in security, networking, and computer technician responsibilities. Lab exercises include assembling a computer, laptop, and troubleshooting problems.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CIS 1130 Networking Basics	3	\$15	0	\$0	N/A	

Description: Students will learn about the importance and networking in a digital world, and be introduced to network essentials required in many business functions today including business critical data and operations, cybersecurity, and much more. Students will learn to install a home and small business network, develop basic network troubleshooting skills, and recognize network threats and basic mitigation techniques.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CIS 1140 Network Essentials	4	\$20	\$0	\$0	N/A	

Description: In this course, students will learn the basic concepts and prerequisites of network computing, including hardware, software, topologies, and the Open Systems Interface (OSI) reference model. Additionally, students will install, configure, and troubleshoot computer networking hardware and software.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
CIS 1310 Network Security Fundamentals	4	\$20	\$0	\$0	N/A	

Description: This course will introduce students to the fundamentals of network security concepts. Students will become familiar with network attackers and their attacks, security basics, network and web security, cryptography, operational security, and policies and procedures related to network security.

COSB 1005 Basic Cosmetology Lab	5	\$25	\$0	N/A	Corequisites COSB 1000, COSB 1015, and COSB 1100

Description: This lab course with the Basic Barbering Lab course are the main lab components for the COSB 1000 series. Lab instruction and practice are an integral part of this program. Practice and lab experiences include shampooing, scalp and hair treatments, manicuring, pedicuring, artificial nails, haircutting, hairstyling, chemical texture, facials, makeup application, hair coloring, hair lightening, shaving, waxing, and hair extension applications.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs
COSB 1015 Basic Barbering Lab	4	\$20	\$0	N/A	Corequisites COSB 1000, COSB 1005, and COSB 1100

Description: This lab course with the Basic Cosmetology Lab course are the main lab components for the COSB 1000 series. Lab instruction and practice are an integral part of this program. This course covers practical experience in the area of shampooing and scalp treatments, manicures and facials, all types of men's haircuts, hair and beard design, care and styling of hairpieces, and straight razor shaving with an emphasis on all barber specific services.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs
COSB 1100 Basic Barbering Theory	3	\$15	\$0	N/A	Corequisites COSB 1000, COSB 1005, and COSB 1015

Description: This course presents barbering theory for the following subjects—history of barbering, barber implements, tools and equipment, shaving and facial design, men's styling, and haircutting.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs
COSB 1200 Cosmetology/Barbering Sciences and Procedures	3	\$15	N/A	N/A	Prerequisites COSB 1000, COSB 1100, COSB 1005, and COSB 1015; COSB 1205 and COSB 1215 (both of which can be taken concurrently)

Description: This course presents cosmetology/barbering theory for the following subjects—history of cosmetology, infection control, general anatomy and physiology, skin structure and growth, nail structure and growth, properties of hair and scalp, basics of chemistry and an introduction to the State Laws of Cosmetology/Barbering.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs
COSB 1205 Intermediate Cosmetology Lab	6	\$30	N/A	N/A	Prerequisites COSB 1000, COSB 1005, COSB 1015, and COSB 1100; and COSB 1200 and COSB 1215 (both of which can be taken concurrently)

Description: Students completing the COSB 1000 series will take this course in preparation to work on clients. Lab instruction and practice are an integral part of this program. This course offers hands-on experience in manicuring, pedicuring, massage, facials, facial makeup, removal of unwanted hair by tweezing and waxing, hair extension application, shampooing, draping, finger waving, roller sets, thermal curling, braiding, haircoloring, hair lightening, chemical texture services, care of wigs, and haircutting.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs
COSB 1215 Intermediate Barbering Lab	4	\$20	\$50	N/A	Prerequisites COSB 1000, COSB 1005, COSB 1015, and COSB 1100; and COSB 1200 and COSB 1205 (both of which can be taken concurrently). This course requires a nonrefundable lab fee.

Description: Lab instruction and practice are an integral part of this program. This lab course provides practical experience with general hair care, draping, shampooing, scalp treatment, men specific manicuring, pedicuring, facials, haircutting, straight razor shaving, beard and mustache trimming. A student will also gain lab experience in chemical texture services, esthetic procedures and make-up application, braiding, hair extension applications, hairstyling including, finger waving, roller sets and thermal curling, haircoloring, and hair lightening. Students have the opportunity to work on clients in a salon setting.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
COSB 1519 Cosmetology/Barbering Lab	6	\$30	\$0	N/A	Prerequisites with Instructor approval	This course is repeatable for credit.

Description: Lab instruction and practice are an integral part of this program. This course covers principles and practices of manicuring, pedicuring, application of nail enhancements, facials, facial makeup, removal of unwanted hair by tweezing and waxing, hair extension application, shampooing, draping, finger waving, roller sets, thermal curling, braiding, haircoloring, hair lightening, chemical relaxing, care of wigs, hairstyling, permanent waving, and haircutting.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
COSB 1810 Theory of Nail Technology	4	\$20	\$500 Nail Kit	N/A	Corequisites COSB 1811	

Description: This course covers principles and concepts of the nail technology profession, including manicuring, pedicuring, sanitation, disorders and diseases of the skin and nails, body chemistry, product safety, related anatomy and physiology, methods of artificial nail applications, problem solving, professional ethics, business management, and state laws.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
COSB 1811 Nail Technology Lab	6	\$30	\$50	N/A	Corequisites COSB 1810	A required lab fee includes a one-time rental of a state board testing kit. This fee is non-refundable.

Description: A student taking this course and COSB 1810 will be ready to license and go to work in one semester. The Nail Technology program can be taken alone or as part of the Cosmetology/Barbering program. Lab instruction and practice are an integral part of this program. Practice and lab experiences include client consultation; manicuring; pedicuring; application of nail tips, wraps, gel and acrylic enhancements; polishing techniques; nail art; and salon management.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
COSB 1910 Professional Development I	1	\$5	\$0	N/A	N/A	

Description: This course is designed to prepare the student for the job market, learning skills in time management, goal setting, ethics and professional dress. The importance of working and communicating with others, healthy habits and a positive attitude are discussed.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
COSB 1920 Professional Development II	1	\$5	\$0	N/A	Corequisites COSB 1910	

Description: This course in connection with COSB 1910 will prepare the student for the job market, learning skills in employment opportunities, public speaking, job application, employment portfolios, focusing on mentoring, money management and leadership skills.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs
COSB 2300 Disciplines and Principles of Cosmetology/Barbering	1.5	\$7.50	\$0	N/A	Prerequisites COSB 1000, COSB 1005, COSB 1015, COSB 1100, COSB 1200, COSB 1205, COSB 1215; and COSB 2300, COSB 2315, COSB 2505 (these three can be taken concurrently).

Description: This theory course covers in-depth the disciplines and principles of the following subjects; Barbering history and opportunities, straight razor shaving and haircutting techniques, basics of electricity, electrotherapy and light therapy, principles of make-up, hair design, braiding, hair extensions and the care of wigs, all aspects of haircoloring, skin and nail diseases and disorders, safety and infection control.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs
COSB 2305 Advanced Cosmetology Lab	6	\$30	\$100	N/A	Prerequisites COSB 1000, COSB 1005, COSB 1015, COSB 1100, COSB 1200, COSB 1205, COSB 1215; and COSB 2300, COSB 2315, COSB 2505 (these three can be taken concurrently). This course requires a nonrefundable lab fee.

Description: In this course, students learn highly marketable skills in preparing for licensure and working in the profession of cosmetology. Students are challenged to serve in the community, to achieve senior student status, and becoming mentors to their fellow peers. Lab instruction and practice are an integral part of this program. This course provides in-depth practical experience in

learning and achieving advanced techniques in all areas essential to becoming a successful cosmetologist/barber. Students perform services in a salon setting. This course has a service learning component.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs
COSB 2315 Advanced Barbering Lab	4	\$20	\$0	N/A	Prerequisites COSB 1000 COSB 1005, COSB 1015, COSB 1100, COSB 1200, COSB 1205, and COSB 1215; and COSB 2300, COSB 2305, and COSB 2505 (the three of these can be taken concurrently).

Description: Barbering is an exciting component in the Cosmetology/Barbering program. Imagine days from the old west, where a gentlemen could get a straight razor shave. This is just one of the services a student will learn in this lab course. This course provides in-depth practical experience in learning and achieving advanced techniques in all areas essential to becoming a successful cosmetologist/barber. Students perform services in a salon setting. This course has a service learning component.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
COSB 2505 Cosmetology/Barbering Capstone	2	\$10	\$0	N/A	Prerequisites Must have Instructor approval	

Description: Lab instruction and practice are an essential part of this program. This capstone course allows students to complete the last 1-100 hours of the mandated 1600 clock hours by the State of Utah. Students are prepared to take the National Interstate Council of State Boards of Cosmetology Licensure Examination (NIC test) and apply for licensure.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
COSB 2519 Advanced Cosmetology/Barbering Lab	6	\$30	\$0	N/A	Prerequisites Must have Instructor approval	This course is repeatable for credit.

Description: Lab instruction and practice are an integral part of this program. This course covers practical experience with shampooing, scalp treatments, manicuring, pedicuring, nail enhancements, haircutting, hairstyling, permanent waving, facials, massaging, esthetic procedures, hair extension applications, care and styling of wigs, haircoloring, chemical relaxing, hair lightening, retail sales, appointment booking, and phone skills. Students perform services in a salon setting.

 Summer April 1

Schedule

Theory Class 7:45 - 9:00
 Morning Lab 9:00-12:30
 Afternoon Lab 1:30 - 4:45

Cosmetology/Barbering

*Kit Fee: \$900
 Includes tools, supplies, and textbook

Nail Technology

*Kit Fee: \$500
 Includes tools, supplies, and textbook

High School students need to be available 7:45 - 4:45 Monday thru Thursday and 7:45 - 11:45 Friday for their first semester. The schedule is flexible after they complete their first semester.

After completion of the first semester, the second semester would be best to schedule 7:45 - 11:45. A/B schedule can be accommodated. However, if possible, everyday/every morning is preferred.

On-line enrollment is NOT available for this program. You must enroll in person at the Student Success office after being accepted into the program.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AUTO 1000 Automotive Basics and Safety	1	\$5	\$0	\$0	N/A	Students need Safety Glasses

Description: This course provides proper knowledge and practices in safety to help establish working habits that would reflect industry standards and result in a safe working environment. This course is for Automotive and Diesel Technology students.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AUTO 1001 Automotive Technology I	3	\$15	\$0	\$0	N/A	Students need Safety Glasses

Description: This course covers careers in the Automotive Industry, ASE Certification, tools, fuels and fuel systems, lubrication systems, engines, engine classification, displacement, cooling systems, belts, intake, and exhaust systems.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AUTO 1002 Automotive Technology II	3	\$15	\$0	\$0	N/A	Students need Safety Glasses

Description: This course covers the principles of suspension and steering, wheels and tires, electrical systems, starting systems, charging systems, lighting and wiring, and ignition systems.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AUTO 1101 Automotive Engine Repair	2	\$10	\$0	subscription	Corequisite: AUTO 1105	Students need Safety Glasses

Description: This course teaches linear axis drives, clutches, brakes, piping, fittings and valves. Students will learn relevant industrial skills including identifying, sizing, selecting, installation, operation, performing analysis, design, troubleshooting and maintenance as well as installing a variety of types of piping, fittings and valves including iron pipe, steel tubing, hydraulic hose, plastic pipe, copper tubing, globe valves, gate valves, check valves, and Sloan valves.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AUTO 1105 Automotive Engine Repair Lab	1	\$5	\$0	subscription	Corequisite: AUTO 1101	Students need Safety Glasses

Description: This hands-on lab covers the construction and operational principles of basic gasoline engine systems and major overhaul of the complete automotive engine.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AUTO 1401 Automotive Suspension and Steering	2	\$10	\$0	subscription	Corequisite: AUTO 1405	Students need Safety Glasses

Description: This course covers repair and adjustment suspension and steering systems. Students study steering gears, rack and pinion, conventional and MacPherson struts, alignment angles, and alignment with a computerized four-wheel alignment fixture.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AUTO 1405 Automotive Suspension and Steering Lab	2	\$10	\$0	subscription	Corequisite: AUTO 1401	Students need Safety Glasses

Description: The hands-on lab covers the repair and adjustment of suspension and steering systems. Students study steering gears, rack and pinion, conventional and MacPherson struts, alignment angles, and alignment with a computerized four-wheel alignment fixture.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AUTO 1501 Automotive Brake Systems	2	\$10	\$0	subscription	Corequisite: AUTO 1505	Students need Safety Glasses

Description: This course covers principles, repair, and adjustment of the automotive brake system and includes hydraulic theory, diagnosis, and service of brake systems. Students study drums, disks, power units, and Antilock Braking System (ABS) brakes.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
AUTO 1505 Automotive Brake Systems Lab	2	\$10	\$0	subscription	Corequisite: AUTO 1501	Students need Safety Glasses

Description: This hands-on lab covers the principles, repair, and adjustment of the automotive brake system and includes hydraulic theory, diagnosis, and service of brake systems. Students study drums, disks, power units, and Anti-Lock Braking System (ABS) brakes.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
DMT 1001 Intro to Diesel Technology I	3	\$15	\$0	\$0	N/A	Students need Safety Glasses

Description: This course covers careers in the Diesel and Transportation Industry, ASE Certification, fasteners, tools, preventative maintenance, lubrication systems, engines, and fuel systems.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
DMT 1002 Intro to Diesel Technology II	3	\$15	\$0	\$0	N/A	Students need Safety Glasses

Description: This course covers electricity and electrical systems, batteries, starting systems, charging systems, steering and suspension systems, brakes, wheels, and tires.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
DMT 1401 Diesel Suspension and Steering	2	\$10	\$0	Check w/ instructor	Corequisites DMT 1405	Students need Safety Glasses

Description: This course will instruct students on the theory, basic operation, parts, and adjustment of suspension and steering systems. The course provides study of steering gears, rack and pinion, conventional shocks, alignment angles, and alignment with a computerized four-wheel alignment fixture.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
DMT 1405 Diesel Suspension and Steering Lab	2	\$10	\$0	Check w/ instructor	Corequisites DMT 1401	Students need Safety Glasses

Description: This course gives students the hands-on lab experience for DMT 1401. This course covers the repair and adjustment of suspension and steering systems. Students study steering gears, rack and pinion, kingpins, conventional shocks, alignment angles, and alignment with a computerized four-wheel alignment fixture.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
DMT 1501 Diesel Brakes	2	\$10	\$0	Check w/ instructor	Corequisites DMT 1505	Students need Safety Glasses

Description: This course will instruct students on the basic operation, repair, and adjustment of the diesel truck and trailer brake systems and includes hydraulic theory, air brake theory, diagnosis, and service of brake systems. The course provides theory on drums, disks, power units, and Antilock Braking System (ABS) brakes.

Course Name	Credits	CE Fee	Course Fee	Textbook	Prereqs/Coreqs	Notes
DMT 1505 Diesel Brakes Lab	2	\$10	\$0	Check w/ instructor	Corequisites DMT 1501	Students need Safety Glasses

Description: This hands-on lab experience, covers principles, repair, and adjustment of the diesel truck and trailer brake systems and includes hydraulic theory, air brake theory, diagnosis, and service of brake systems. Students study drums, disks, power units, and Antilock Braking System (ABS) brakes.

BADGERTRACKS

FOR CONCURRENT ENROLLMENT SENIORS

If you are a Snow College Concurrent Enrollment senior planning to be a New Freshman at Snow after graduation, you can take advantage of **BADGERTRACKS**. The advantages of participating in the BadgerTracks program are:

1. You do not need to pay an application fee.
2. You will still be able to take classes as concurrent enrollment until you have graduated high school.
3. Since you are already a Snow College student, you do not need to reapply. Just answer three quick questions to let Snow know your plans, even if you plan to defer your enrollment up to two years.
4. You will be able to enroll in on-campus classes at the same time as returning students.
5. You may be eligible for Concurrent Enrollment scholarships.

You can also track your progress toward your academic goal by using DegreeWorks. Log into **BadgerWeb** and look for DegreeWorks in the Student tab.

BADGERTRACKS Scholarship Requirements:

- 1 Students who have completed at least 12 credit hours of Snow College Concurrent Enrollment work by the time they graduate with a 3.0 GPA or higher in their Snow courses may benefit from receiving a **\$500 per semester scholarship (approximately one-third of a semester's tuition)**. No application is needed for this scholarship to qualify as long as you meet the requirements and funding is available.
- 2 Students must retain a 3.0 GPA to continue to receive the waiver throughout their experience at Snow College, as long as they are making steady progress and taking a full course load (minimum 15 credits per semester).
- 3 Students who have taken a mix of IVC Concurrent Enrollment from Snow College and Snow sponsored face-to-face courses, including on the Richfield or Ephraim campus, would be eligible for the waiver as well.

BadgerTracks Scholarship Website

<https://www.snow.edu/academics/concurrent/badgertracks.html>
