Family and Consumer Sciences Education

is ideal for students who want to educate others and help improve their quality of life. You will receive a broad and well-rounded education in financial and resources management; health, foods and nutrition; wellness; child development, parenting and family life; clothing and textiles, and interior design and housing. Through a student teaching component, you will also gain hands-on experience and develop classroom management skills to help you build a successful teaching career.

Upon graduation, FCSE majors have nearly 100% job placement. Thanks to excellent faculty members, students also boast a nearly 100% pass rate on the Praxis exam, which is required for all teachers. There are many career options, with most graduates working in education, Extension, marketing, research, product development or working to assist families and communities through various agencies.

FCSE MAJORS STUDY

Child development and parenting • Personal and family financial management • Human development and family studies • Clothing and textiles • Foods, nutrition and wellness • Interior design and housing • Instructional strategies for teaching learners of all ages • Applications for technology in the classroom of the future
